## AMEREC – YOUR MOMENT

Imagine being able to shut the door on the world for a few minutes every day. Billows of warm, gentle steam wash over you, relaxing muscles, opening pores, inducing a skin-healthy perspiration. This is your moment – to follow a thought aimlessly, listen to the rise and fall of your own breathing, forget what comes next.

Amerrec, the experts at helping you make a personal timeout easy to prioritize. Within the sanctuary walls we help you create soft clouds of stress-melting steam cleanse body and soul and renew the spirit – and help you capture your moment every single day.

TIME  
STOPS

## Stop time

### LIVING IN THE MOMENT

It is the catch-22 of modern living: to be able to do it all, you need to find the time to pamper yourself with the luxury of doing nothing at all. Time is the measure of our lives. We all need to feel, even if only briefly during the day, that its power holds no sway.

A luxurious bath of Amerec steam every day offers just that. Lost in its clouds, you are free to follow an aimless thought. Re-attune yourself to the rhythms of your own body. Put the past day's events into perspective or charge up for what the coming day will bring. Time has no power here.

## Comforting heat

### FOR THE MODERN LIFE

For many, the days of hard physical labor may be past. But the stresses of modern life and work more than make up for it. Steam bathing may have originated in Roman times, but its benefits have never been more relevant.

A daily steam bath is a remarkable way to indulge yourself. It causes the perspiration that is the single healthiest thing you can do for your skin. Stress and negativity quickly dissipate in the soft clouds of intense yet comforting heat. Within minutes, you are yourself again, cleaner, vibrant and more whole.

## Planning Your Steam Room

Your own personal steam bath at home: it is easier than you might have thought. And once you have it, you'll wonder how you ever did without.

Steam can be added to any shower by totally enclosing the space and covering the walls and ceiling with a waterproof surface material such as tile. The steam generator is very compact, which means it can be installed anywhere it won't be exposed to freezing temperatures – a basement, closet, cabinet or attic, for example.

Most home steam baths are custom built on site. That means yours can be easily customized to your preferred size and shape – and with materials that match your tastes and bath décor (tile, stone, glass, etc.). You can also indulge in the added rewards of chromatherapy lighting and aromatherapy fragrance injection systems.

Everything you need to shape your personal steam bath retreat is available from Amerec.

## Personal help with planning

Your Amerec dealer has extensive experience in the design and installation of home steam baths.

**Call 1-800-331-0349**

to find the dealer nearest you.

[www.amerec.com](http://www.amerec.com)

To get started even faster, visit our online steam bath planning guide. We'll show you how easy and fast it can be to start enjoying the benefits of steam in 3 straightforward steps.

## Quality and design

At Amerec, we understand that the quality of your steam bath experience is directly related to the quality of the products we design. Steam is our specialty; we know how to create the perfect steam bath environment because we appreciate and respect its long history as a healthy way to purify both body and mind.

In the steam bath business, the Amerec name is synonymous with quality and innovation. Over the years, we've built a reputation for providing leading products and services that make it easy to capture your moment daily – in a healthy, comforting and refreshing cloud of pure, clean steam.

---

## The green effect

Pure, clean water is a source and nurturer of life. But it is not limitless – some estimates say that 38 states will have a severe shortage of clean water within the next few years. Steam baths are friendly to the environment because they consume small amounts of electricity and water. A typical steam bath costs only \$3 to \$5 more in electricity each month when used 3 times a week.

An Amerec steam bath generator uses less than 2 gallons of water during one-half hour of operation. Compare this to jetted tubs that require 60 to 120 gallons of water to fill or a body spray system that consumes more than 100 gallons in 15 minutes.

Personal rejuvenation is not possible at the expense of peace of mind. With Amerec steam baths, the environmental advantages of being good to yourself are clear.

# AT SERIES GENERATOR

## RESIDENTIAL STEAM GENERATOR

The comforting effects of steam bathing are brought to the forefront with Amerec's AT steam generator, ADT auto drain and innovative TI00 touch screen control. Purpose-designed for home use, your shower will quickly become your personal indoor oasis. Controlled with the touch of a finger, the steam room heats to its preset temperature and maintains that level while simultaneously conserving energy. Temperature variation is minimized while an even flow of steam maintains perfect conditions for the relaxation you seek.

## TI00 TOUCH CONTROL

- Touch screen operation for easy control of temperature and time settings.
- Large screen displays steam bath temperature and time of day.
- Displays temperature in Fahrenheit or Celsius.
- Sleep mode with integral sensor to activate screen when approached.
- Delayed start feature to pre-heat steam room at selected time up to 24 hours in advance
- Multiple language settings include English & Spanish.
- Remote-mounted sensor allows the Touch control to be mounted inside or outside the steam shower or steam room.
- Flush-mount, low-profile installation
- Installed dimensions 6-3/8" H x 4" W

- The AT Series generator package features the TI00 Touch Control and includes the ADT auto drain system.
- Innovative "soft steam" maintains stable temperature and steam flow, ensuring a perfect steam bath experience every time.
- Easy to install and use.
- Limited Lifetime warranty protects your investment and ensures years of trouble-free performance.
- Available in a range of sizes and power configurations to ensure a consistent steam experience regardless of room size or shape.

AT SERIES GENERATOR					
Model	Power (kW)	Volts	Phase	Max Cu. Ft.	Size (WxHxL - inch)
AT5	5.0	240	I	100	6-1/4x13x16-1/2
AT7	7.0	240	I	220	6-1/4x13x16-1/2
AT10	10.0	240	I	400	6-1/4x13x16-1/2
AT12	12.0	240	I	500	6-1/4x14x16-1/2
AT14	14.0	240	I	600	6-1/4x14x16-1/2

AT20	20.0	240	I	900	-
AT30	30.0	240	I	1,350	-

\* AT12 & AT14 generators require 2 separate line circuits and 2 steam heads for each generator.

\*\* AT17 & AT20 include 2 generators connected to function as 1 system with 1 control.

\*\*\* AT30 includes 3 generators connected to function as 1 system with 1 control.  
Each generator supplied with the ADT auto drain

Please call 1-800-331-0349 or visit [www.amerrec.com](http://www.amerrec.com) for detailed electrical specifications.

## COMFORTFLO™ STEAM HEAD.

The Amerrec ComfortFlo steam heads add comfort and safety to your steam bath. Steam passes through a plastic insulator, preventing the exterior metal surface from getting too hot. The ComfortFlo steam head also features a fragrance reservoir that lets you enjoy the proven benefits of aromatherapy – simply add a few drops of your favorite scent to personalize an even more enriching steam bath experience.

## ADT AUTOMATIC DRAIN SYSTEM

Your AT generator-powered steam bath includes an automatic drain and flushing system for added convenience and worry-free performance. The ADT automatic drain empties the generator tank after every bath and refills the tank with clean, fresh water before your next steam bath. In addition to reducing sediment build up and providing longer element life, the ADT drain ensures that the steam for each new bath is generated from pure, freshly-sourced water.

# AK SERIES GENERATOR

## RESIDENTIAL STEAM GENERATOR

The soothing and purifying effects of steam bathing are a direct result of the bath's ability to minimize temperature variations and maintain an even flow of steam. Amerrec AK generators were purpose-designed for home use, transforming your shower or bathing room into a daily invitation to comfort. An AK generator uses full power to quickly heat up the steam room to its preset temperature, then cuts power to half its elements. The result is a more consistent flow of soft steam and more stable temperature – the perfect conditions for relaxing and recharging whenever the mood strikes you.

## ADK AUTOMATIC DRAIN OPTION

Your AK generator-powered steam bath can also be fitted with an optional automatic flushing system for added convenience and worry-free performance. The ADK automatic drain option empties the generator tank after every bath, and refills the tank with clean, fresh water before your next bath. In addition to reducing sediment build up and providing longer element life, the ADK option ensures that the steam for each new bath is generated from clean, freshly-sourced water.

-  Innovative "soft steam" elements maintain stable temperature and steam flow, ensuring a perfect steam bath experience every time
-  Standard manual drain valve can be upgraded to the automatic drain option for added convenience and longer element life
-  Easy to install and use
-  Limited Lifetime warranty protects your investment and ensures years of trouble-free performance
-  Available in a range of sizes and power configurations to ensure a consistent steam experience regardless of bathing room size or shape

AK SERIES GENERATOR					
Model	Power (kW)	Volts	Phase	Max Cu. Ft.	Size (WxHxL - inch)
AK4	4.0	240	I	75	6-1/4x13x16-1/2
AK5	5.0	240	I	100	6-1/4x13x16-1/2
AK6	6.0	240	I	160	6-1/4x13x16-1/2
AK7	7.0	240	I	220	6-1/4x13x16-1/2
AK8.5	8.5	240	I	300	6-1/4x13x16-1/2
AK10	10.0	240	I	400	6-1/4x13x16-1/2
AK12*	12.0	240	I	500	6-1/4x14x16-1/2
AK14*	14.0	240	I	600	6-1/4x14x16-1/2
AK17**	17.0	240	-	725	-
AK20**	20.0	240	-	900	-
AK30***	30.0	240	-	1350	-

\* Single phase AK12 & AK14 generators require 2 separate line circuits and 2 steam heads for each generator.

\*\* AK17 & AK20 include 2 generators connected to function as I system with one I control.

\*\*\* AK30 includes three 3 generators connected to function as I system with I control.

Please call 1-800-331-0349 or look at [www.amerec.com](http://www.amerec.com) for detailed electrical specifications.

## "WARM START" INSTANT STEAM OPTION

Imagine being able to step into the gentle, healthy heat of cleansing steam within 60 seconds of turning the generator on. The "Warm Start" option keeps water in the tank preheated to a temperature just below a boil, reducing the time required to heat the bath by several minutes. And if you won't be using the steam bath for an extended period, a simple on/off switch lets you deactivate the pre-heating option to save on power consumption.

## K200i FREEDOM CONTROL

Now you can start, stop or adjust your steam bath from virtually anywhere within a 50' range. Amerec's remote K200i Freedom Control means no cables, no mounting and no need to drill holes through expensive marble or tile. The K200i hand unit frees you to enjoy the very best steam bath experience possible.

# CONTROLS

## RESIDENTIAL STEAM GENERATORS

Think of it - you've just awakened and your first thought is to greet the day in the warmth of a steam bath. Now there's no need to go to the steam room as the control comes with you. Amerrec's K200i Freedom Control provides the convenience of wireless remote control from almost any room in the house. While the control's subtle tones of biscuit or white complement the bath environment, the ComfortFlo steam head is available separately in polished chrome, polished brass, polished nickel, brushed nickel or oil-rubbed bronze. Can it be more convenient?

**i** Chromatherapy Lighting Option. Research has shown that different colors have varied psychological and physiological effects on us. This option, installed in the steam shower ceiling, provides color light therapy to enhance your feeling of health and well-being.

**i** Fragrance Injector. This option automatically infuses your favorite aromatherapy oil directly into the steam line. You control the intensity of the therapy using the K200i Control.

**i** EvenSteam™ Air Circulation Fan Option. For steam bath ceilings over 8', this option circulates air to minimize temperature variations – letting you enjoy the same full, rich sensation of steam comfort from top to bottom.

### K200i FREEDOM CONTROL

With the K200i Freedom Control, nothing gets between you and a perfect steam bath experience. Completely wire-free, the K200i lets you control every comfort aspect of your steam within a 50' radius. There are no cables to install, and no expensive or tricky drilling – set the timer and temperature, and know instantly when your steam bath is ready from almost any room in the home... including inside the steam room. Available in White or Biscuit.

### THINK OF THE FREEDOM...

- to turn on your steam bath from the comfort of your bed
- to enjoy a cup of coffee in the kitchen and still know at a glance when your steam bath temperature is exactly right
- to adjust your steam bath experience inside the shower, without having to get up
- from installing and dealing with messy cables
- from drilling holes through expensive tiles, marble or granite

Amerec offers a wide variety of control options for AK generators that let you tailor your own steam bath experience to your exact personal specifications. Each unit comes in your choice of metal cover finishes (polished chrome, polished brass, polished nickel, brushed nickel and oil-rubbed bronze). All kits include the ComfortFlo™ steam head and all the cables needed to connect the control to the generator.

#### KT60 – DIGITAL CONTROL WITH BUILT-IN TEMPERATURE SENSOR

- Digital display alternates between room temperature and time remaining
- 3-button panel with on/off, temperature setting and time duration setting adjustable up to 60 minutes
- Integral temperature sensor simplifies installation
- Must be mounted inside the steam room

#### K60 – DIGITAL CONTROL WITH REMOTE MOUNTED TEMPERATURE SENSOR

- Digital display alternates between room temperature and time remaining
- 3-button panel with on/off, temperature setting and time duration setting adjustable up to 60 minutes
- Remote temperature sensor must be mounted inside steam room
- Can be mounted inside or outside the steam room

#### K30 – DIGITAL CONTROL WITH REMOTE MOUNTED TEMPERATURE SENSOR

- Display window lights up when steam generator is on
- 1-button on/off panel with built-in 30 minute timer
- Remote temperature sensor must be mounted inside steam room
- Can be mounted inside or outside the steam room

#### R30K – ON/OFF NON-THERMOSTATIC CONTROL

- Green indicator light tells bather the generator is on
- Simple on/off switch without temperature sensing
- Built-in 30 minute timer
- Can be mounted inside or outside the steam room

### FINISH OPTIONS

Polished Chrome

Polished Brass

Polished Nickel

Brushed Nickel

Oil Rubbed Bronze

### COMBINATIONS

KT60, K60 and K30 controls are available in dual control kits so one control can be mounted inside and the other outside the steam bath for user convenience.

#### DKT60 / K60

#### DK60 / K30

# AV VAPORMIST

## RESIDENTIAL STEAM GENERATOR

The AV Vapormist generator is a compact, shoebox-sized unit designed specifically to turn small showers into a personal oasis for rest, relaxation and rejuvenation. This 120V plug and play unit fits easily into almost any nearby space such as a vanity, cabinet or nearby closet. Within 80 seconds of activation, your shower fills with clouds of soothingly warm steam and transforms into a welcoming personal wellness center. With the AV Vapormist, lack of shower space is no longer a barrier to taking advantage of the benefits of a daily steam.

## PLUG AND PLAY

Experience the pleasure of steam with plug-in simplicity. Just plumb cold water to the unit, add a steam line to the shower space, plug the generator into a 120V, 20 amp outlet and your steam bath is ready to use. Vapormist generators are quiet, minimize water and energy consumption and generate steam within 80 seconds of start up.

## COST-EFFECTIVE COMFORT

With Vapormist, Amerec engineers have made steam bathing easier and more affordable than ever. Smaller than a shoebox ( 4"W x 7 1/2"H x 9 1/4"L), Vapormist is ideal for converting small shower enclosures into luxurious steam baths.

-  120V Vapormist affordably provides the ambiance of soft, gentle steam at lower temperatures than standard 240V steam units
-  Compact size fits anywhere and makes it affordable to turn even the smallest shower into a luxurious steam bath
-  Plug and play simplicity – whisper-quiet operation with no complicated installation or instructions
-  Low power and water consumption saves money and is resource-friendly
-  Limited Lifetime warranty, unmatched in the industry

AV VAPORMIST					
Model	Power (kW)	Volts	Phase	Max Cu. Ft.	Size (WxHxL - inch)

AV2 - CP**	2.0	120	I	80	4x 7 1/2x 9 1/4

\* With a white control unit

\*\* With a Chrome control unit

## BE GOOD TO YOURSELF

Steam bathing is one of the single best ways to improve your overall well-being. The gentle, humid heat relaxes muscles and improves circulation with minimal stress on your cardiovascular system. Your whole body responds with a purifying sweat, flushing out dirt, toxins and dead skin cells. Open pores absorb pure, clean moisture, hydrating and rejuvenating skin. Breathing problems and obstructions clear up. A daily steam bath will help you both look and feel better, so you can always be at your best.

## R30i CONTROL

The attractive simplicity of the R30i control unit makes it perfect for managing your AV Vapormist steam spa. The R30i on/off control features a built-in 30 minute timer and can be mounted inside or outside the steam shower.

# ACCESSORIES

## RESIDENTIAL STEAM GENERATORS

We all have different criteria for measuring comfort. Amerrec makes it easy to personalize your experience with a range of steam bath accessories that add to your sense of well-being. Whether you prefer the mood-soothing effects of soft color light, the peace of mind of cooled steam outlets or the ultimate convenience of an automatic drainage system, Amerrec has a solution for making your steam bath exactly right for you.

### CHROMATHERAPY LIGHTING OPTION

Colors have a documented effect on our moods and using colored light to enhance feelings of inner peace and well-being is now an accepted practice. Enhance the soothing and revitalizing effect of your steam bath with our ceiling-mounted color light therapy kit.

### FRAGRANCE INJECTOR OPTION

The injector eliminates the need to add aromatherapy oils onto the steam head by introducing oils directly into the steam line. The K200i Control allows the bather to control the frequency and amount of aromatherapy oil pumped into the room.

### COMFORTFLO™ STEAM HEAD

The ComfortFlo steam head is designed with a unique steam dispersion pattern that provides more even heat throughout the steam room and reduces the time required to reach the desired room temperature. Amerrec ComfortFlo steam heads ensure each steam bath is a safe and pleasurable experience. Steam is delivered into the room through an internal Ryton plastic insulator, preventing the exterior metal surface from reaching high temperatures. The ComfortFlo steam head features a fragrance reservoir that allows the bather to enjoy the benefits of aromatherapy by adding their favorite fragrance to the reservoir.

### FRAGRANCE, EUCALYPTUS

- Suprema Grade,  
100% Pure.

### WHITE RELAX SHOWER SEAT

- The Relax shower seat is an affordable seating option for steam baths and showers. It provides bathers a place to relax and enjoy the soothing benefits of steam. Constructed of easy to clean plastic, the Relax seat can be folded-up against the wall when not in use. Seat dimensions are 13" x 9".

### TEAK SHOWER SEAT

- Featuring the beauty and durability of Teak wood, this sturdy seat is an affordable seating option for baths and showers. The Teak seat provides bathers a place to relax and enjoy the soothing benefits of steam. Easy to clean, the Teak seat can be folded-up against the wall when not in use. Seat dimensions are 20" x 13".

### STEAM SHOWER SOUND SYSTEM

- The Steam Shower Sound System offers superior sound quality for your personal steam shower. Waterproof FM radio with iPod interface, pre-amp outlet and RF 2-way remote control. Waterproof flush-mount, 2-way speakers with powder coated stainless steel grilles.

### ASX100 SINGLE SUMP/ CARTRIDGE SYSTEM

- With replaceable cartridge featuring a ScaleX2 filter to reduce scale build-up and extend element life.

### ADP STAINLESS STEEL DRIP PAN

- Designed for use with Amerrec AT, AK, 3T and 3K series steam generators. When properly installed and connected to an appropriate drain line, the ADP drip pan catches and drains away any water leaks. Features stainless steel construction with welded corners and a 3/4" stainless fitting.

### AUTOMATIC DRAIN VALVE

- Automatic Drain Valve for AK & 3K Series Generators

# 3T SERIES GENERATOR

## COMMERCIAL STEAM GENERATOR

Creating the perfect environment for your guests is the goal of every spa business owner. Amerec's 3T series steam generators help attain that goal. The 3T series comes to you complete - steam generator, ADT auto drain and the innovative TI00 touch screen control. Select the steam head in your preferred finish - polished chrome, polished brass, polished nickel, brushed nickel or oil-rubbed bronze. The 3T series steam generators are designed for use in smaller commercial steam baths that are operated for short, intermittent periods. Their compact size is an added benefit when space is at a premium, yet they are powerful enough to provide a steady flow of soft, gentle steam at even temperatures, ensuring maximum guest comfort.

## POWERFULLY SMALL

Don't let the size of 3T Series steam generators fool you. Each provides more than enough power to heat and steam the room dimensions it was designed for. Their relatively compact size gives you installation options for more effective use of space at your facility.

## TEAM WORK

3T Series generators are purpose-designed for easy coupling – multiple units can be connected together to effectively heat large steam rooms up to 1,500 cubic feet. The 3T Series makes maintenance and access very easy and includes power-saving features that help keep electricity bills low. With the TI00 Touch control and ADT auto drain included, it's the perfect package for your facility.

-  Compact yet powerful generators provide soft, even steam and dependable ongoing performance
-  Easily coupled for large room applications; easy to control and service
-  Effective power and water consumption lets you provide a cost-effective guest amenity that will be appreciated
-  We are happy to help advise you free of charge on the generator configuration that makes most sense for your facility – simply call 1-800-331-0349

3T SERIES GENERATOR					
Model	Power (kW)	Volts	Phase	Max Cu. Ft.	Size (WxHxL - inch)
3T8	8.0	208	3	300	6-1/4x13x16-1/2
3T10	10.0	208	3	400	6-1/4x13x16-1/2
3T12*	12.0	208	3	500	6-1/4x14x16-1/2
3T14*	14.0	208	3	600	6-1/4x14x16-1/2
3T20**	20.0	208	3	800	-
3T24**	24.0	208	3	1,000	-
3T28**	28.0	208	3	1,200	-
3T36***	36.0	208	3	1,500	-

\* 2 steam heads are recommended for 3T12 and 3T14 generators.

\*\* 3T20, 3T24 & 3T28 include 2 generators connected to function as 1 system with 1 control.

\*\*\* 3T26 includes 3 generators connected to function as 1 system with one 1 control.

Multiple unit ganged systems require multiple steam heads that must be ordered separately.

Multiple unit ganged systems supplied with ADT suto drain.

Please call 1-800-331-0349 or look at [www.amerec.com](http://www.amerec.com) for detailed electrical specifications.

## TI00 TOUCH CONTROL

- Touch screen operation for easy control of temperature and time settings.
- Large screen displays steam bath temperature and time of day.
- Displays temperature in Fahrenheit or Celsius.
- Sleep mode with integral sensor to activate screen when approached.
- Delayed start feature to pre-heat steam room at selected time up to 24 hours in advance
- Multiple language settings include English & Spanish.
- Remote-mounted sensor allows the Touch control to be mounted inside or outside the steam shower or steam room.
- Flush-mount, low-profile installation.
- Installed dimensions 6-3/8" H x 4" W

## ADT AUTOMATIC DRAIN SYSTEM

Your AT generator-powered steam bath includes an automatic drain and flushing system for added convenience and worry-free performance. The ADT automatic drain empties the generator tank after every bath and refills the tank with clean, fresh water before your next steam bath. In addition to reducing sediment build up and providing longer element life, the ADT drain ensures that the steam for each new bath is generated from clean, freshly-sourced water.

## 3K SERIES GENERATOR

### COMMERCIAL STEAM GENERATOR

Whatever the size of your facility, these days it is more important than ever to ensure customer comfort and satisfaction. Amerec's 3K Series steam generators help you create added value for guests cost effectively. Easy to maintain and service, the 3K Series steam generators are designed for use in smaller commercial steam baths that are operated for short, intermittent periods of time. Their relatively compact size means they can be fitted even when space is at a premium, allowing you to turn underused space into a wellness center that will be appreciated. At the same time, they are powerful enough to provide a steady flow of soft, gentle steam at even temperatures, ensuring maximum guest comfort.

## POWERFULLY SMALL

Don't let the size of 3K Series steam generators fool you. Each provides more than enough power to heat and steam the room dimensions it was designed for. Their relatively compact size gives you installation options for more effective use of space at your facility.

## TEAM WORK

3K Series generators are purpose-designed for easy coupling – multiple units can be connected together to effectively heat large steam rooms up to 1,500 cubic feet. The 3K Series makes maintenance and access very easy, and includes power-saving features that help keep electricity bills low.

-  Compact yet powerful generators provide soft, even steam and dependable ongoing performance
-  Easily coupled for large room applications, easy to control and service
-  Effective power and water consumption lets you provide a cost-effective guest amenity that will be appreciated
-  We are happy to help advise you free of charge on the generator configuration that makes most sense for your facility – simply call 1-800-331-0349

3K SERIES GENERATOR

\*\* 3K20, 3K24 & 3K28 include 2 generators connected to function as 1 system with 1 control.

\*\*\* 3K36 includes 3 generators connected to function as 1 system with 1 control.

Multiple unit ganged systems require multiple steam heads that must be ordered separately.

Multiple unit ganged systems include 1 drain valve Kit for each generator.

Please call 1-800-331-0349 or visit [www.amerrec.com](http://www.amerrec.com) for detailed electrical specifications.

## COMFORTFLO™ STEAM HEAD.

The Amerec ComfortFlo steam heads add comfort and safety to your steam bath. Steam passes through a plastic insulator, preventing the exterior metal surface from getting too hot. The ComfortFlo steam head also features a fragrance reservoir that lets you enjoy the proven benefits of aromatherapy – simply add a few drops of your favorite scent to personalize an even more enriching steam bath experience.

## K60 / K30 CONTROLS

K60/K30 controls make it easy to control the most important features of your steam baths. Both versions can be mounted inside the steam room or out, and offer intuitive, easy to understand controls for features such as temperature control, on/off and timer setting.

## HOW TO BUY AND SERVICE

At Amerrec, we pride ourselves on providing exceptional customer service. Our knowledgeable staff is happy to answer your questions and help plan your personal steam bath. Our exclusive "On Site" technical support ensures the installation and start up of your Amerrec steam system will go smoothly and efficiently. For more information about Amerrec or to find your local dealer, please contact us at 1-800-331-0349.
